Re: _____ (Student)

Grade: _____ Date: _____

.....

Your child registered without an original birth certificate (a certificate having color coding or seal, including the birth certificate number). Therefore, he/she has been placed in class on a temporary basis.

You have thirty (30) calendar days to produce an original birth certificate from the date stated above. If you do not comply within this time limit, your child will be excluded from class and a transfer out of the district will be issued.

I understand that I must submit my child's birth certificate to school district 148 within thirty (30) days or the local law enforcement agency will be notified.
